

Nayeemul Islam Durjoy

Scarborough, ON, Canada | nayeemuldurjoy@gmail.com | +1 (249)-979-4922

PROFESSIONAL SUMMARY

M.Sc. Computational Science student transitioning from software engineering to data analytics with 3+ years of proven technical experience. Proficient in Python, SQL, Excel, and data visualization tools (Matplotlib, Seaborn, Plotly, Tableau, Power BI). Strong foundation in statistical analysis, data manipulation, and problem-solving gained through academic coursework and hands-on projects. Seeking to leverage analytical mindset and technical skills to deliver actionable insights as a Data Analyst.

TECHNICAL SKILLS

Data Analytics: Python, SQL (MySQL, PostgreSQL), R, Excel	Visualization: Tableau, Power BI, Matplotlib, Seaborn, Plotly
Libraries & Tools: Pandas, NumPy, SciPy, Scikit-learn, Jupyter	Statistical Analysis: Regression, Hypothesis Testing, A/B Testing
Data Engineering: ETL Processes, Data Cleaning, API Integration	Databases: MySQL, PostgreSQL, Firebase, MongoDB
BI & Reporting: KPI Development, Dashboard Design, Data Modeling	Machine Learning: Classification, Clustering, Predictive Analytics
Programming: Python, JavaScript, Java, Dart, Git/GitHub	Soft Skills: Problem-Solving, Communication, Team Collaboration

WORK EXPERIENCE

Quomodosoft - Dhaka, Bangladesh

Apr 2022 – Apr 2024

Software Engineer (Flutter)

- Led end-to-end development of multi-vendor e-commerce platform serving 50,000+ users, managing full product lifecycle from R&D through deployment and maintenance.
- Architected reusable component libraries using BLoC design pattern, reducing code redundancy by 30% and accelerating feature delivery across three application modules.
- Integrated multiple payment SDKs (Stripe, FlutterWave, Instamojo) and real-time messaging, collaborating with cross-functional teams to meet tight deadlines.
- Served as technical liaison between development, backend, and design teams, translating business requirements into scalable technical solutions.

Salah Software Solutions - Sylhet, Bangladesh

Dec 2020 – Mar 2022

Software Engineer (Flutter)

- Translated interactive UI/UX designs into production-ready Flutter applications with pixel-perfect precision and design accuracy.
- Built and maintained RESTful API integrations connecting frontend to backend services, enabling dynamic data retrieval and user workflows.
- Evaluated and implemented third-party plugins and SDKs to extend application functionality while maintaining performance standards.

EDUCATION

Laurentian University, Sudbury

May 2024 – April 2026

M.Sc. Computational Science – Focus: Data Analytics & ML

Metropolitan University, Sylhet

Jan 2016 – June 2020

B.Sc. Computer Science & Engineering

PROJECTS

ShopO — Multi-Vendor E-Commerce Platform

Flutter, Dart, BLoC, PHP Laravel

- Developed full-stack multi-vendor marketplace with user, seller, and delivery modules. Integrated payment gateways (Stripe, FlutterWave, Instamojo) and messaging system. Actively maintained in production.

Unice — AI Assistant Application

Flutter, Dart, BLoC, ChatGPT API

- Built cross-platform AI chatbot leveraging OpenAI ChatGPT API. Successfully deployed to Google Play Store and Apple App Store with BLoC architecture.

ArtsiCraft — Crafts Product Marketplace

Java, Android, MVVM, PHP

- Developed native Android e-commerce app using MVVM architecture with PHP backend. Published on Google Play Store with robust product catalog and transaction features.

CERTIFICATIONS & TRAINING

Google Data Analytics Professional Certificate
SQL for Data Science
Python for Data Science, AI & Development

Coursera (In Progress)
University of California, Davis / Coursera
IBM / Coursera
